God brings us laughter! Let's make a craft that will make us laugh.

#### INSTRUCTIONS

1. Look through a magazine with people and cut out different ears, eyes, noses, mouths and hair.
2. Tape toothpicks to the back of each facial feature.
3. Stick the toothpicks into a foam cup at a diagonal so the facial features stick up. Mix them up from the different cut facial features.

Sarah laughed when she heard she was going to have a baby because it sounded all mixed up. She was too old to have a baby! But God brings us laughter, and he brought Sarah joyful laughter when she had baby Isaac.
