## **Faithlife Giving Offers Free Subscriptions to Online Platform to Aid Churches During COVID-19**

**BELLINGHAM, Wash., March 19, 2020** - In support of the many churches that will operate online for the foreseeable future in recognition of CDC recommendations to help slow the spread of coronavirus, [Faithlife Giving](#), an online giving solution from Faithlife, makers of Logos Bible Software, is now offering [six months of premium rates with no subscription fees](#) to its platforms designed to simplify and encourage faithful giving within the Church.

“During this unprecedented time for the world, it is more important than ever that Christians continue to be faithful with their finances,” said Faithlife Founder and CEO Bob Pritchett. “Although the physical gathering of the Church may be halted for now, the work that God has for His people to do is more abundant than ever. Allowing tithing and giving to be easily accessible and trackable through online platforms will encourage church members to continue giving and see that the needs in their church and community are met.”

Designed to help churches focus more on ministry and less on money, Faithlife Giving allows church members to donate online, calculate their tithes, receive giving reminders, keep donations secure and provide leadership with automated giving reports.

“Every church and its members must stay as connected as possible during this time of social distancing and quarantining,” said Pritchett. “We at Faithlife are honored to be able to make this mission easier by giving churches free access to our platforms. We

hope and pray that this will encourage members to keep giving and help uphold the needed operations and outreach of the Church.”
