Faithlife Offers Step-by-Step Guide for Taking a Church Online in Under 24 Hours

Company Hosts Daily Live Q&As During COVID-19 Social Distancing

BELLINGHAM, Wash., March 15, 2020 – [Faithlife Corporation](#), which was founded in 1992 as Logos Bible Software and today offers a full suite of church management solutions, is helping leaders ensure COVID-19 social distancing doesn't disrupt their efforts to be the Church by offering a number of free and low-cost tools to help them take their church online during this pandemic.

Faithlife has set up step-by-step online instructions to help leaders:

- Record their sermons;
- Publish their sermons to their church website and social media;
- Build a free streaming TV channel for their recorded sermons and other video;
- Enable mobile and online giving for their church in minutes;
- Provide a safe online community for their church to share prayer requests, facilitate small group discussion;
- And more.

"While there's nothing that can or should replace in-person church attendance, sometimes, we aren't left with many other options, as proven through COVID-19," said Faithlife Founder and CEO Bob Pritchett. "We want to help church leaders use technology to remain in the biblical community, even when physical gatherings are not possible."

Additionally, Faithlife is offering daily live Q&As with its team of experts March 16-20 at 10 a.m. PDT. Faithlife also offers technical phone support 24 hours a day, seven days a week via its Church Support Center.
