

Sherrie has been helping me with grading lessons, preparing Bibles and addressing envelopes for mailing the Bibles. After our Mission Meeting, Sherrie volunteered to set up an excel sheet so that we will have accurate numbers for the Bibles we are sending as well as the NLB lessons we are sending. We are both very excited about this and she is doing an amazing job!

The numbers I am giving you may not be totally accurate, but hopefully will help. I am mailing all of the Bibles for Texas and to any other states where they may be requested. We have sent only a few of those to Wisconsin, Colorado, Oklahoma.

We originally mailed 400 Bibles beginning in November of 2018. In 2019 we received 600 more Bibles and just this month mailed the remainder of those Bibles, making a total of 1000 WBS Bibles mailed to jails and prisons mainly in Texas and Arkansas.

We recently received 1000 more Bibles and are mailing approximately 20 – 30 each week. (This is a conservative figure.) I am personally corresponding with an estimated 80 to 100 inmates each month. I am very excited to see exactly how many we are documenting. Just this morning we are mailing 21 lessons in addition to others we have mailed this week.

This Ministry is growing by leaps and bounds and we are getting an amazing amount of feedback with requests by those who are participating in the courses. They are sending anywhere from one to a dozen names which are included on their answer sheets or on little pieces of paper included with the lessons. Le is doing an excellent job printing the Certificates for us!!!

We are also blessed by several of our members who are participating in the NLB Ministry. These numbers will also be included on the excel sheet.

Please express our appreciation for all of the financial support that makes this Ministry possible. We are impacting lives in ways we could never have thought or imagined!
