

Block Users

support.faithlife.com/hc/en-us/articles/360025802092-Block-Users

You can block any Faithlife user from seeing your posts and messaging you from your **Account Settings**.

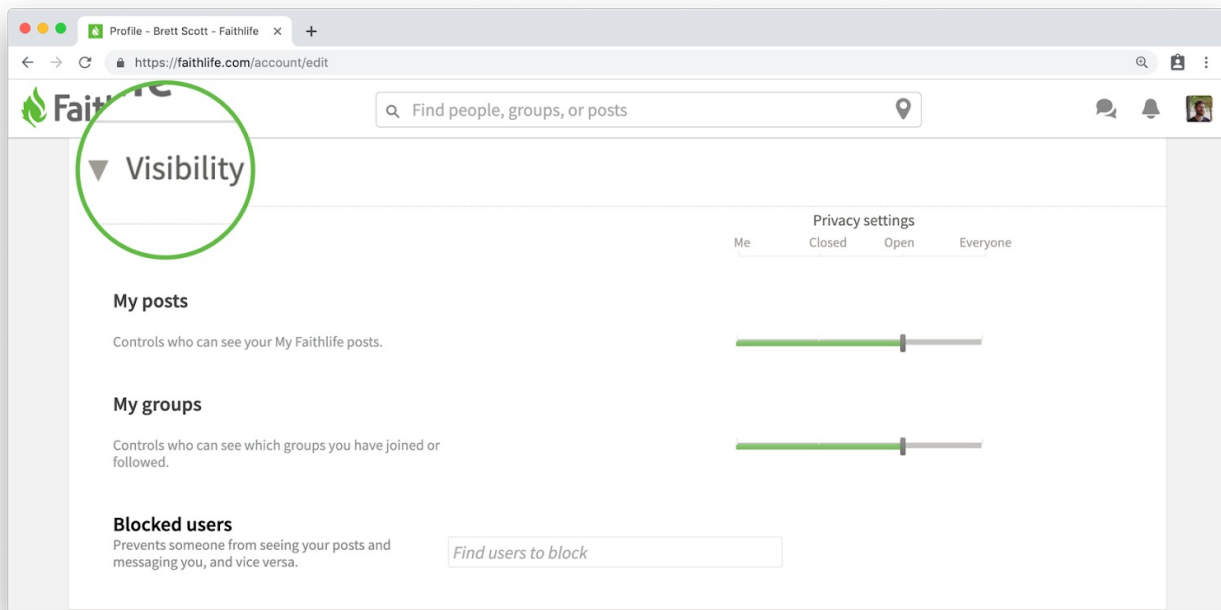

1. Go to your account settings.

Click your profile picture in the top right-hand corner of your webpage and select **Account Settings**.

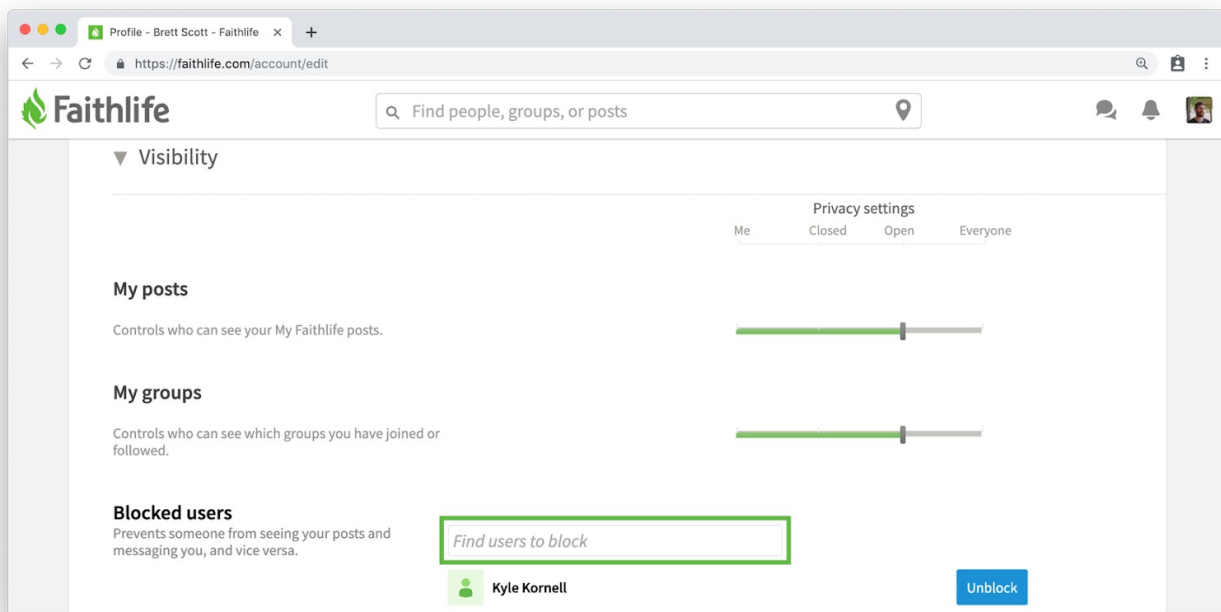

2. Expand visibility.

Scroll down and expand **Visibility**.

3. Enter the user(s) you'd like to block.

As you type, a dropdown menu will appear. Select the user's name from the list.

Your changes are saved automatically. You can unblock a user by selecting the blue **Unblock** button.

Note: When you block a user from seeing your posts and messaging you, you will also be blocked from seeing the user's posts and from messaging them.
