

We initiated the construction of a multifunctional space in Vila Dedé, in the region of Pauini, in the Amazon.

The men have already started hauling the wood from the edge of the Purus to the top of the river, where the land is situated.

Please pray with us:

- For God's protection during all the stages of the work.
- For the health of the carpinters, their helpers and for the group of women that are helping with the labour.
- For this space to be used entirely for making Christ known among the riverside folk.

- MÁRCIO GARCIA
