Dear Parents,

We have really missed having your kids in class every week. Praying we will be together again soon! We are going to be talking about Mother's Day this coming Sunday. We have a special craft planned for Moms or someone that's like a Mom to us. If possible, please have someone other than the Mom in the family print the craft from the website so the kids can make it and give it as a surprise. We are going to make the craft during the Zoom Sunday School class on Sunday, May 10, 2020 at 10:15am. Please make sure they have the following supplies:

- Printed craft from "Elementary Lessons"
- Scissors
- Crayons

Note: I have included instructions on how to do the craft on your own if you aren't able to join us on Sunday, but we hope to see you there!

We are also going to briefly talk about the relationship between Naomi and Ruth. Ruth was a great example of how we can love our mom.

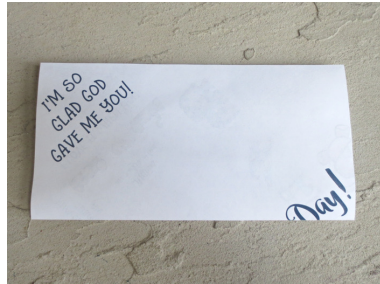

Bible Passage: Ruth 1:6-17

Main Point: Naomi had lost everything, her husband and 2 boys. She had no choice but to go home and hope someone would take pity on her. She didn't want Ruth and Orpah to suffer with her, so she told them to leave. Ruth refused to leave Naomi because she loved her like a mother. She vowed to take care of her. She would worship God with her mother-in-law. Ruth showed Naomi the same selfless love Naomi had shown her.

Looking forward to talking more about moms and how special they are. Hope to see you all on Sunday!

Folding Directions for Mother's Day Folding Puzzles

1. Copy the printable puzzle, using the double sided option on your printer. Cut out the square.
2. Fold square in half vertically, then fold in half horizontally. Open up paper.

3. Turn paper so "Happy Mother's Day!" side is up. Bring bottom corner up until the corner touches the center of the page and the edges match the fold lines in the paper. Continue folding each corner to the center. Line up the images as you fold.

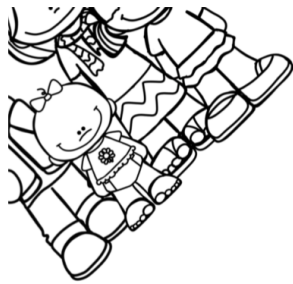

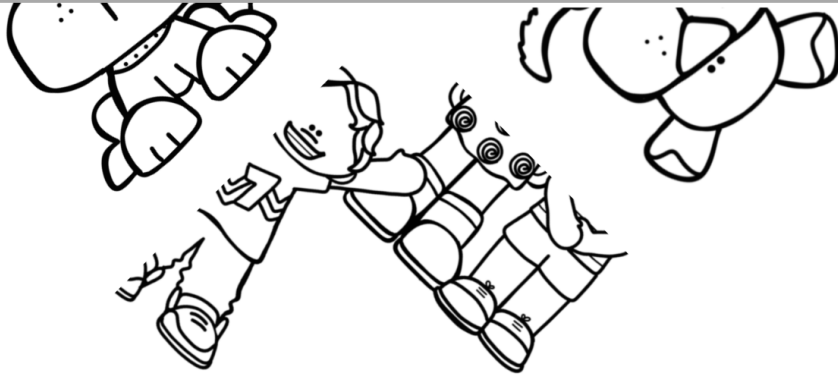

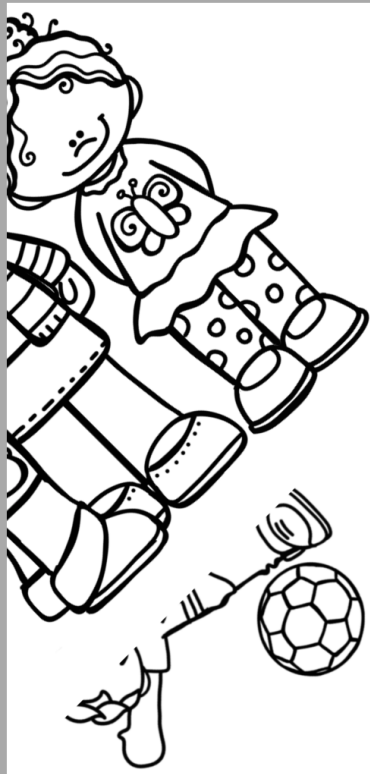

4. Repeat step 3, bringing the corners of the puzzle up to touch the center of the puzzle, matching the image as you fold. You will see the following image:

5. Repeat step 4, bringing the corners of the puzzle up to touch the center of the puzzle, matching the image as you fold.

6. After the puzzle is folded, color the puzzle as desired and answer the questions.
