

Dear Prayer Partners,

We are more than half way through our time in Bolivia. It has been a productive time as we wind down the recording and dubbing of this huge project called the Genesis Project. These are a few pictures of what this project is about, over five hours of episodes from the book of Genesis.

Jaars (a branch of Wycliff Bible Translators) will do the final mastering of audio and sound effects to complete the process. We hope to hear from them soon and then it will be ready for distribution. We are looking forward to that.

Our next adventure will take us to the book of Acts. The permission has been granted and we are on our way translating.

Thank you, dear ones, for praying for the completion of the Genesis series.

We ask prayer for the ongoing dubbing of these languages into great tools these isolated groups can use to help them grow spiritually. All of these projects are digitally formatted for cell phone use and other media devices.

Sincerely in Christ,

Bruce and Jan Johnson
