- We move that the church commit to staying in one worship service and expand our Sanctuary's seating capacity to allow us room to grow in the short-term and to serve as a launching pad for a return to church planting as our long-term growth strategy. We ask the church to authorize the AMT to work with church staff to develop a prioritized list of projects, with cost estimates supported by solicited quotes, and a plan for paying for the projects. These plans will then be presented to the church for a decision at the June Family Gathering. In addition, we suggest that the AMT be authorized to create a designated fund to allow those able and interested to begin making contributions which will then be used toward the final project list in the order of priority the church approves in June.
- We move that the church to authorize the AMT to investigate the feasibility of a third staff elder and bring us back a report by June's Family Gathering.
