

## **A PRIORITIZED LIST OF UNFINISHED, REPAIR/REPLACEMENT & NEW PROJECTS**

The NHCC Board of Elders has prioritized no less than 10 projects and now we're seeking support for their completion. We believe the top 5 can be taken care of within the next few months. They include:

**#1 – General repairs & maintenance.** - Giving attention to the regular maintenance that's been on hold: changing out furnace filters, fixing dripping faucets, rehangng fascia metal, replacing light bulbs, tightening hinges, door handles, and handrails, adjusting doors, replacing worn weather stripping, finishing wall prep for painting.

**#2 – South entrance porch and stairs.** - Carpet needs to be removed, debris scraped from the cement, and an application of a non-skid surface.

**#3 – Outside Stairwell to the basement and chimney.** - The erosion in the stairwell must be given the attention it needs before it collapses in on itself. The basement utility room service door will need to be sealed up and backfilled. The chimney vent for the furnaces has been scaling for many years and will need to be checked/repared, too.

**#4 – The Community Room (fellowship hall/gym)** – Remodeling the started last spring, (4/20). The two things that still need to be installed to complete this current project are new lighting & floor covering. The materials for floor covering: \$8954.00. We have ~~\$6450~~ (just received another \$300!) \$6750 on hand, but need an additional \$2504, \$2204 to pay in full. The lighting fixtures will be \$994. **Total still needed: ~~\$3498~~ (\$3198)** When the **\$2504 \$2204 for the flooring** is collected, we'll get it ordered and installed.

**#5 – Communications stations** – We're looking to create a space in the main lobby by the welcome desk for displaying ministry opportunities & communications. Slat board will be mounted to the walls and moveable clear plastic holders used to display information. A space in the main hallway will also be a part of this needed project.

*These projects can be addressed one at a time, a couple at a time, or simultaneously. With your help, they can all be completed much more quickly. We need generous hearts and willing hands!*

**The next 5 items we'd like to tackle, and not listed in any specific order: parking lot repairs, new front sign, a disc golf course, restrooms upgraded, and better stage lighting for "live streaming" our services.**

All 10 items will require financial support to get them accomplished. General repairs & maintenance are covered by the budget. We need a bump to get things rolling! What can you give towards the listed projects? Time, skills, funding? Please pray and participate! Thank you.
