Planting tomatoes? Or are flowers your passion? Looking forward to your fresh garden veggies? Here's a few safety tips while **summer gardening**:

- **Don't overdo it.** Admit it; none of us can do everything we used to do. Don't try to do it all in a day. Pace yourself and take breaks to rest. Drink plenty of water and stay out of the sun during the hottest part of the day.
- **Do a safety check of your yard.** Look for roots, uneven ground, loose steps, rocks, anything that might cause a fall.
- **Carry a cellphone** whenever you are outside the house.
- **Use a cane** or walking stick on uneven ground.
- **Avoid climbing on ladders**, chairs or upside-down buckets. It's not worth risking a fall.
- **Stay away** from slopes and banks.
- **Allow family members** to give you safe gardening gifts. Most families struggle to find the right birthday or holiday present. Hand them your gardening wish list!
