Generate a QR Code for Your Giving Form

support.faithlife.com/hc/en-us/articles/360059390292

Admins or Moderators of your main church group can generate a QR code to direct people to your Giving form. You can create custom media from your church group's File Vault.

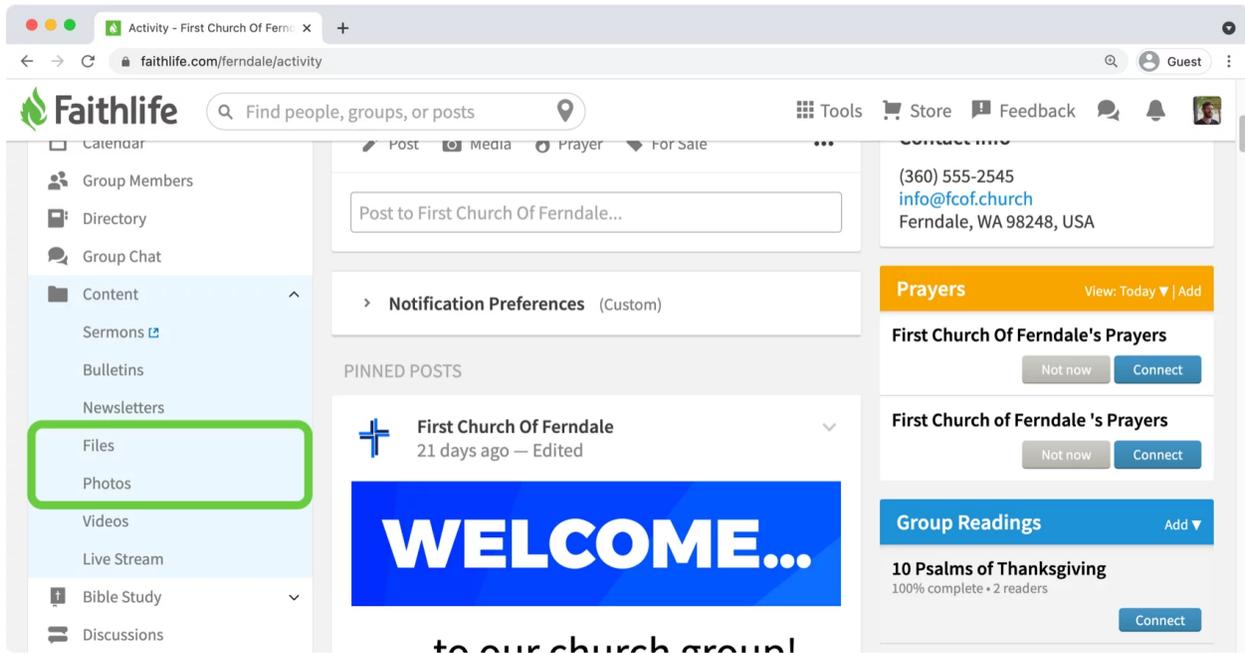

1. Copy your Giving form link.

Go to Faithlife.com and open your **Finance Team** from the **Groups** panel. Scroll down to the **Admin** panel and select the **Share/Embed** menu and copy your Giving form link.

The screenshot shows the Faithlife website interface. On the left, a navigation menu is visible with the 'Share / Embed' option highlighted in a green box. The main content area displays a 'Give to Your Church Name' form with a '\$50.00' amount and a green 'Give' button. To the right, there are sections for 'Share it with anyone' and 'Embed it on your website'. The 'Share it with anyone' section shows a URL 'https://faithlife.com/ferndale/give' with a 'Copy' button highlighted in a green box. The 'Embed it on your website' section provides two instructions: 1. Copy and paste the following script tag into your site, ideally right after the opening <body> tag: `<script src="https://faithlife.cc" ></script>` (with a 'Copy' button). 2. Copy and paste this where you want the Give button to show: `<a fl-giving-link fl-style href='` (with a 'Copy' button).

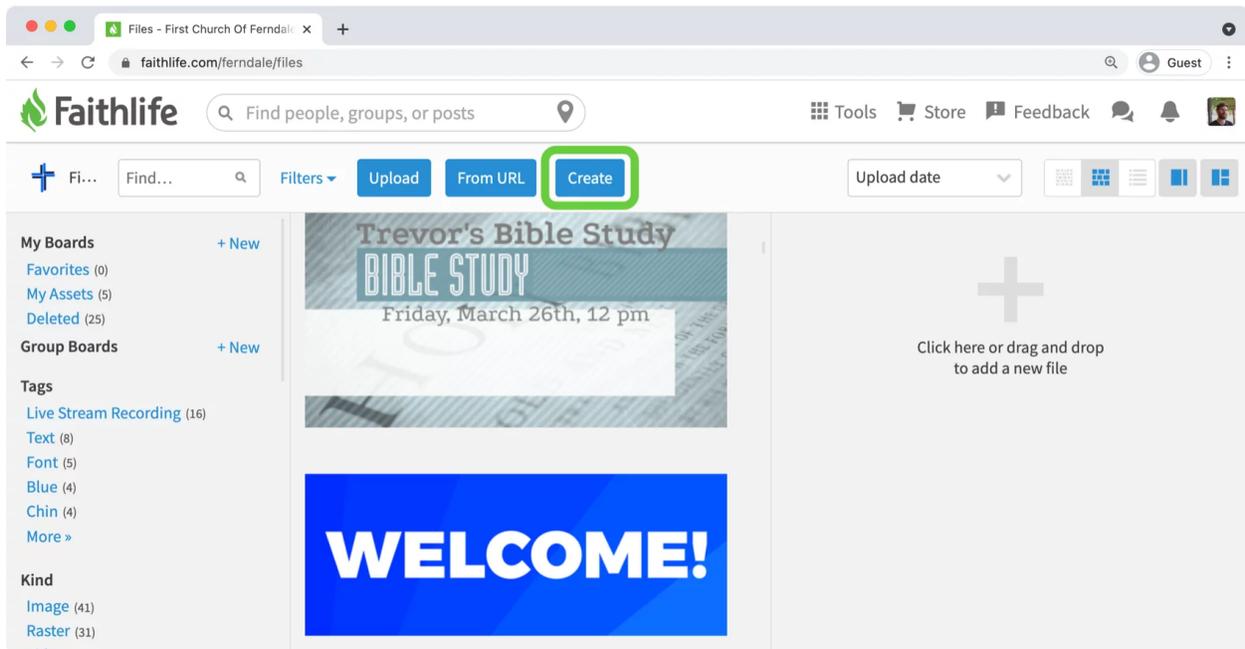

2. Open your main church File Vault.

Navigate to your main church group on Faithlife.com and select either the **Files** or **Photos**.

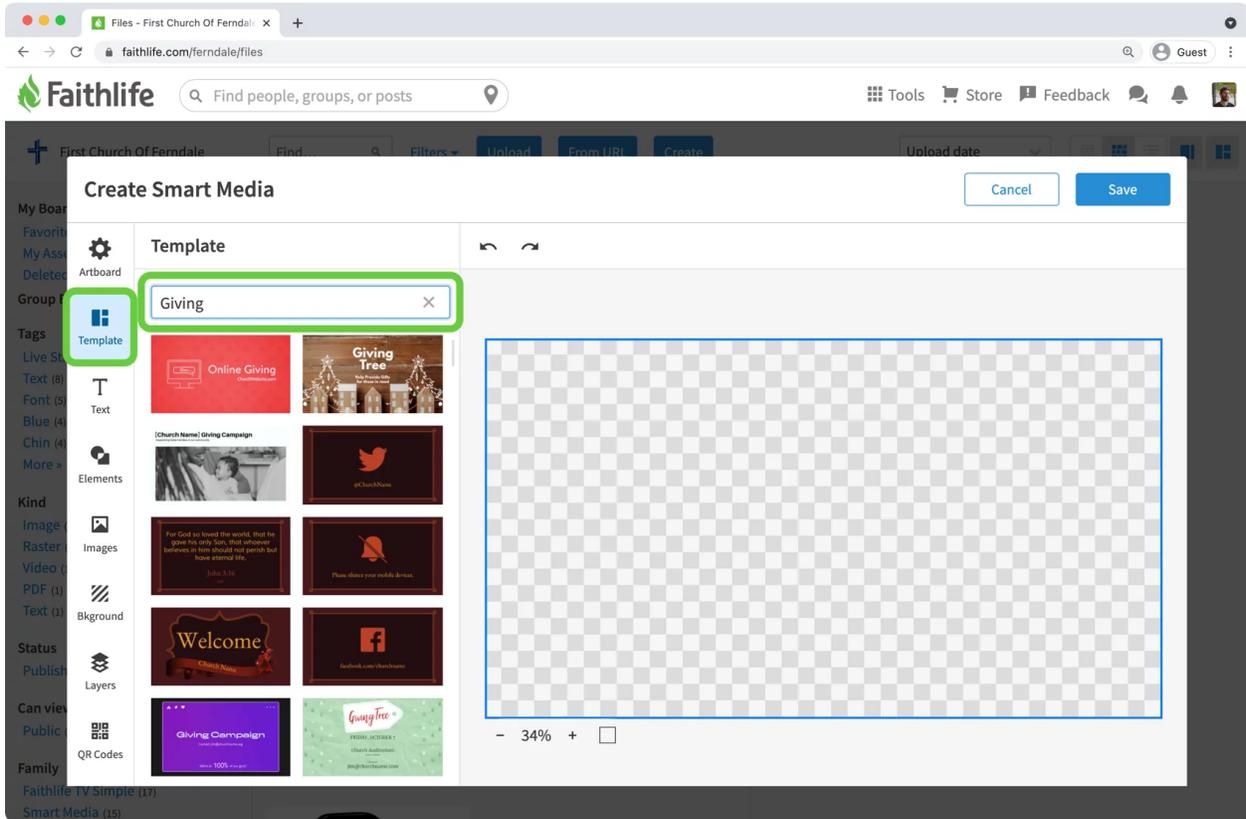

3. Create a new media item.

Click **Create** in the navigation bar.

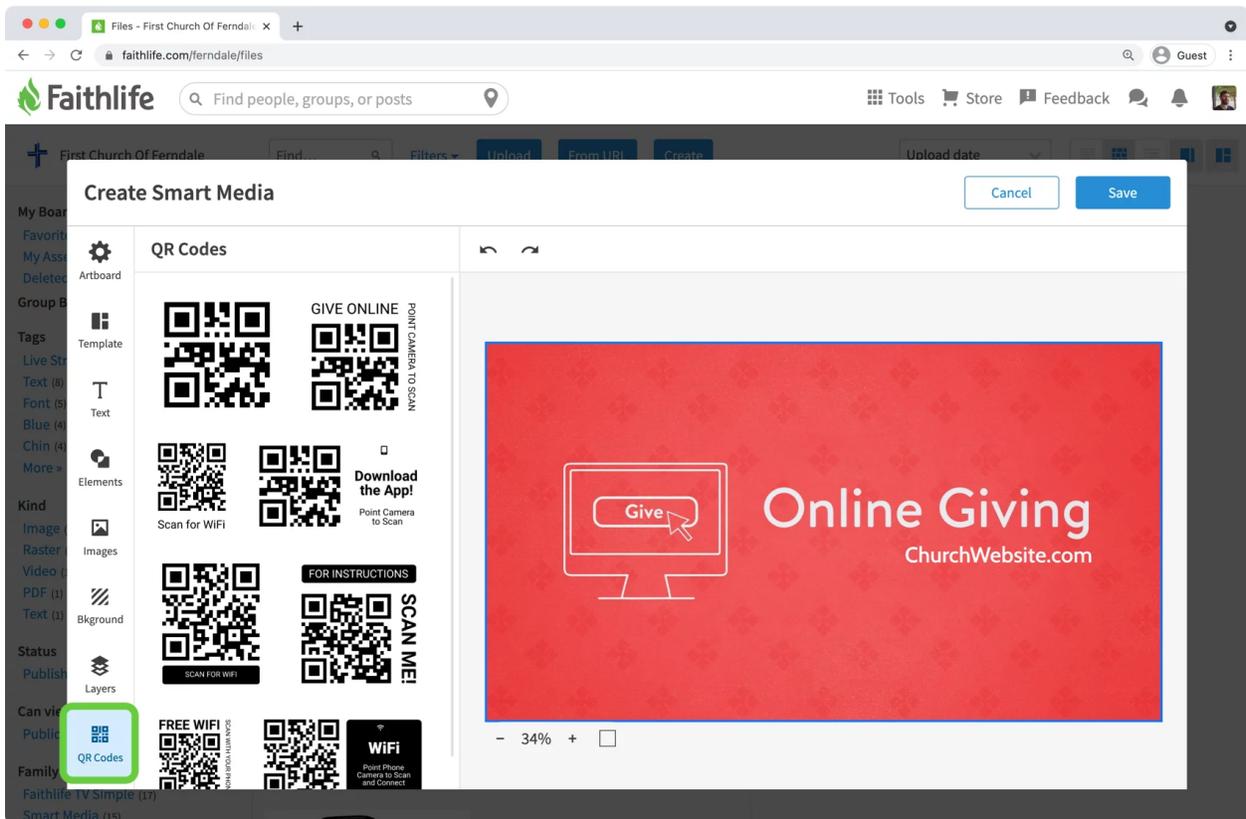

4. Create your media.

To build your media from an existing template, select **Template** and search for **Giving**. Select a an existing template.

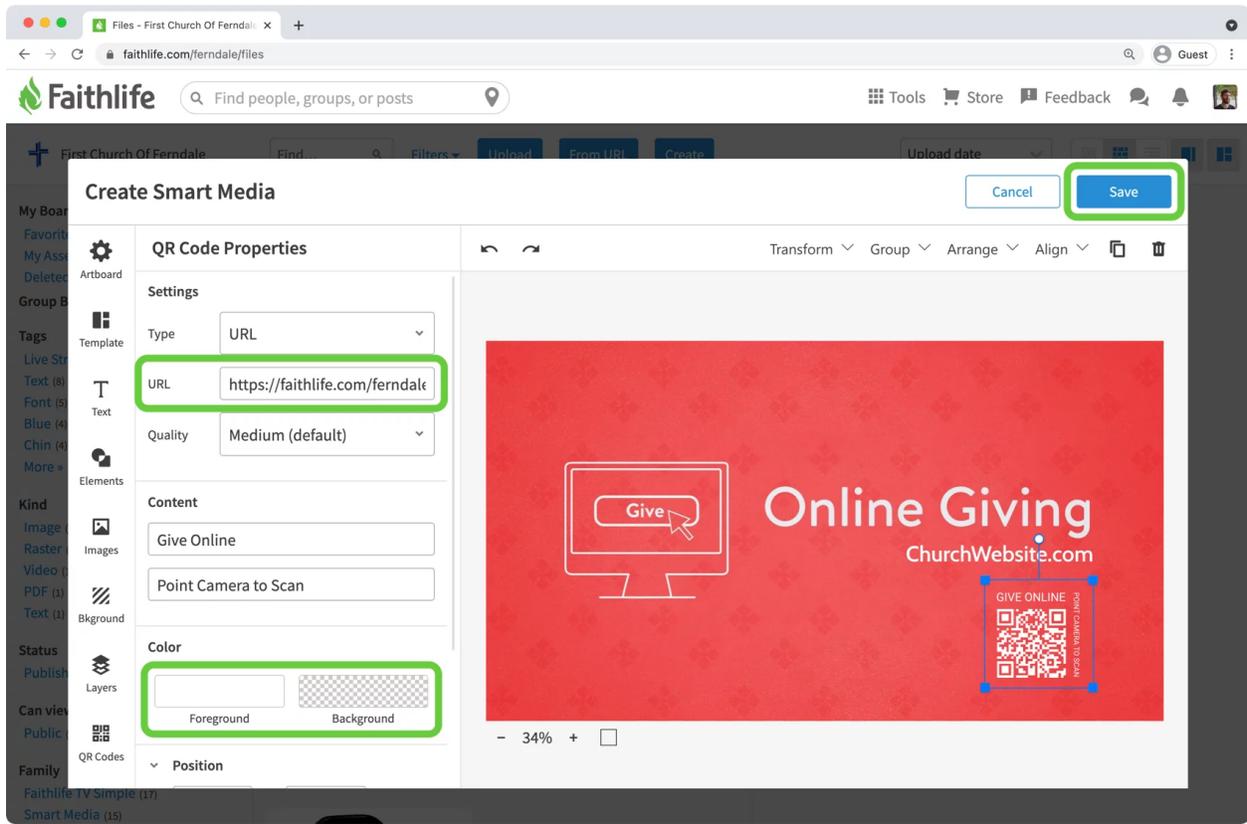

Note: To create a QR code only, skip adding a template and continue below.

Click **QR codes** and select an option from the list.

With the QR code selected, paste your Giving form link in the **URL** field. Adjust the color and any other settings.

Note: Set the QR code background to *transparent* to use the QR code as an overlay on another image.

When you've finished, click **Save**.

5. Download your media.

Your custom media will show in your file vault. Click **Download** to save it to your computer.

The screenshot shows a web browser window with the address bar displaying "faithlife.com/ferndale/files". The page header includes the "Faithlife" logo, a search bar with the text "Find people, groups, or posts", and navigation links for "Tools", "Store", "Feedback", and a user profile icon labeled "Guest". Below the header, the page is titled "First Church Of Ferndale" and features a search bar, "Filters", and buttons for "Upload", "From URL", and "Create".

The main content area is titled "Assets" and displays a large red graphic for "Online Giving" by ChurchWebsite.com. The graphic includes a "Give" button on a monitor icon and a QR code labeled "GIVE ONLINE". To the right of the graphic are three action buttons: "Favorite", "Share", and "Download". The "Download" button is highlighted with a green border.

Below the graphic is a "DETAILS" section with a "Title" field containing the text "New Smart Media" and a "Stats" link. To the right of the main content is a sidebar with several sections: "MY BOARDS" with "Add to board" links, "GROUP BOARDS" with "Add to board" links, "SMART MEDIA" with an "Edit Smart Media" link, "UPLOADER" with a profile picture and the name "Brett Scott", and "FORMATS" with an "Add new" link.

Note: Learn more about creating media with the Smart Media editor.
