

Kirk & Michelle Templeton Update:

The church has recently made some updates to their building, which is a praise. Old carpet has been taken out and replaced with a new laminate flooring.

The youth program has really taken off and has become an amazing outreach to the community young people.

The pandemic has also been a blessing for their work. The church has been united and there was no sense of fear for them, while the community was deeply fearful. Their peace has been a huge testimony and many have been attracted to them to understand why.

As with all ministry, though, there are also hard times, so please continue to pray for unity, strength, and many to come to know Jesus in town and beyond.
