

Bill and Penny minister at Open Door Fellowship in Debeque, CO. Their congregation has been hit very heavily with co-vid these past few weeks. Bill's mom, age 92, has also come down with it. They have been able to keep her at home, thankfully!

Thankfully, the church has been open and sharing and are trusting Jesus with all that is happening with co-vid and the culture. One man died just a week ago, but had shared that he was not afraid of dying but was trusting Jesus.

Please be praying for health and renewed strength for all, and Penny would love more children to attend Sunday school!
