

Building Renovation Committee Meeting Minutes

May 11, 2022

Present: Cathy Johnson, Matt Mitchell, Rachel Molina, Terry Nordheim, Linda Rambow, Gail Seaver

Guests: Lana Larson, Scott Mower

Architect Scott Mower and Interior Designer Lana Larson were given a tour of the existing office space, fellowship hall, and Kirvida room.

Discussion points:

1. Discussed the building entrances and the need for added security along with visibility of the main entrance from the administrative office (either directly or via electronic cameras)
2. Linda's office has both heating and cooling issues that should be looked at with the heating being the main issue. The office has extremes in both heat and cooling.
3. Discussed removing the doors to the deck from the Kirvida room and the fellowship hall. Youth programming feels they need access to the courtyard because it is used frequently. The feeling is that the fellowship hall should continue to have a door to the outside with the deck either being replaced, or stairs to a courtyard area. The French doors could be replaced with a more secure regular door. Also discussed possibly adding windows to the basement underneath the deck which apparently existed before the deck was added.
4. The architect and interior designer will look at both remodeling the office space and starting from scratch to redesign it to better fit the needs.
5. Drawings will come first and pricing will follow. But, some price estimates are needed for the congregational information meetings that hopefully will start in June.

Gail Seaver

Next Meeting: tbd, pending receipt of architecture drawings.
