

The Taylors to Belgium

Building project

We are renovating our building to bring it up to code, Our building, for which I am thankful, is very old. Every time he starts one thing it is like opening a can of worms. His favorite phrase is this was not in the original estimate. We need some help. God has blessed us with Sunny weather so we have been able to meet outside in a garden. We have to update the plumbing and the electricity. Any extra financial help would be appreciated

Coffee Time

I have started a coffee and conversation time everyday from 10-12 at the church. Some days I have no one but some days there are several who pass to practice English or just need someone to talk to for a while. I have been able to witness to several policemen.

Youth

Deborah is working full-time with our youth, She planned and executed an activity with our sister church in Lieu-Saint, France and a sister church in Namur Belgium. Excitement was the key with all the young people being together . Hopefully this is a start to youth rallies involving more french speaking churches.

Camp 2022

We had a great camp season with great weather and a great group of children and teens. We were blessed with one saved in Junior from our church. During Teen Camp we saw many of our teens rededicate their lives to live for Jesus this year. This year's theme was "Thriving in Babylon" and Corry Meyers, missionary from Spain, challenged our teens to stand up and boldly live for Jesus. This year we added our third language group to our camp with a group of teens from Spain.
